

PCI COMPLIANCE SCANNING

powering Clone Guard® Security Scanning

Comply with the Payment Card Industry Data Security Standard (PCI DSS) and safeguard your customer's data with Clone Systems' **PCI Compliance Scanning**

Leverage a robust PCI data security scanning solution from an Approved Scanning Vendor (ASV) that meets all the PCI Security Standards Council requirements

- ✓ **Easy to use self-managed web-based scanning portal** which enables you to maintain PCI compliance by scheduling and running scans every 90 days or as often as you want
- ✓ **Analyze your solutions that store, process, or transmit cardholder data for threats and vulnerabilities** that could expose sensitive data

Minimize the risk of compromise for cardholder data and the potential impact on your organization

- ✓ **Detailed remediation steps for protecting against identified vulnerabilities** detected during your PCI security scan
- ✓ **Unlimited re-scans** on your network to assess steps taken to fix vulnerabilities
- ✓ **Threat intelligence and signature updates** consistently updated from multiple security sources to protect against emerging threats and vulnerabilities

Fulfill PCI compliance reporting requirements for the acquiring banks, card brands or other requesting entities you do business with

- ✓ **Executive, Detailed and Attestation PCI reports with ASV certification number** to address your assessment and compliance reporting requirements
- ✓ **Online Self-Assessment Questionnaire (SAQ) for all the different SAQ types** to assist you with reporting the results of your PCI DSS self-assessment
